

# The Team

**FI** REAL ESTATE  
MANAGEMENT

FIREM was established almost 40 years ago and is a specialist property investment, property management and property development company operating through the UK in all sectors. The business currently owns and manages over 10m ft<sup>2</sup> of commercial property and is involved in promoting several major development projects, many for mixed uses, but most in the employment and commercial sectors.

The business knows all the problems, pitfalls and requirements that can either enhance or erode value in the property sector and it is this experience that makes its approach so different to other similar organisations and which has brought it continuing success over the years it has been operating. The business is analytical, farsighted, decisive and creative and there are few situations that phase, confound or defeat it when it comes to commercial real estate in any sector in the UK.

Domus Architecture is a national practice based in Leeds and with a strong focus on providing high quality and commercially driven design across a number of project sectors including Residential, Industrial, Retail and Offices. Domus offer a full range of Architectural services from concept design, and planning to Contract Administration.

Prime Transport Planning is a focused team with big-brand credentials, providing all the rigour of a large organisation with none of the corporate hurdles. Deliberately structured for better, more agile and more cost-effective problem solving, PTP draw from a range of knowledge and experience for sustainable placemaking.

Integra has built a reputation for understanding the commercial importance of effective project delivery and producing holistic engineering design solutions over the last 20 years. They are a multi-disciplinary practice based in Manchester, offering Civil & Structural Engineering, Flood Risk, Drainage and Geo-Environmental services.
