Colour: Grey
- G - Roof Lights
Colour: Anthracite Grey
- H - Gutters and Rain Water Pipes

Steel Roller Shutter Doors.
Colour: Anthracite Grey

Powder Coated Aluminium Frames.
Colour: Anthracite Grey

The proposed units create modern industrial warehouse spaces through contemporary design, a simple material palette, clean lines and crisp detailing. The elevations will be predominantly clad in vertical composite panels, with a section of feature micro-rib horizontal cladding above the entrance areas. Frames to windows and doors will be powder coated aluminium and colour matched to the steel roller shutter doors.
